PROFILE

Results-driven Software Developer with solid expertise in full-stack web engineering across Python, React, and TypeScript. Combines academic foundations in Applied IT and Management with hands-on experience in building real-time applications, RESTful APIs, and responsive user interfaces. Passionate about writing clean, maintainable code to deliver scalable digital solutions

EXPERIENCES

Fullstack Developer & Salesforce Automation 09/2025 - 09/2026

Solumada Ivandry

- **Salesforce:** PDF Butler, FORM Butler, SIGN Butler
- **Automation on Thynk Plateform:** Deployed end to end document automation workflows for international clients within the Thynk.cloud ecosystem.
  Troubleshot and resolved intricate automation logic and data mapping issues, ensuring seamless document generation
- **Real-time Application Development (Soluchat)**: Engineered a real-time chat application using **React** and **TypeScript**, focusing on high-performance UI and seamless user experience.
  Integrating complex RESTful APIs and backend services with the frontend, ensuring efficient data flow and state management.
- **Progress Tracker App (ThynkInsight):** Engineered a full-stack web application leveraging **Clean Architecture in Python** and a **structured, modular React frontend** to modernize team workflow tracking on Thynk, replacing static Excel spreadsheets. Enhanced overall user experience by incorporating an interactive chatbot to facilitate seamless platform navigation and rapid onboarding.

Web Developer Intern 02/2024 - 05/2024

CIDST Tsimbazaza

Stage de Fin d'Etude

- Developed a web application for Zarahay Doctorants using Angular and Dkango to optimize resource sharing and collaboration among doctoral students
